This A2 edition keeps the core, everyday grammar (present/past/basic future tenses, articles, the essential modals, basic comparisons, and the most common irregular verbs) and sets aside the more advanced structures for later. The Appendix tables still include some higher-level material for anyone who wants to look ahead.

1. Start

This course is built around the priorities below — the grammar and vocabulary areas that make the biggest difference to how clearly and confidently you communicate in English.

[1. Grammar](#): present, past and future tenses (simple, continuous, passive, perfect)

[2. Prepositions](#): at, in, on, about, for, by, with

[3. Adverbs](#): words ending in “ly” that usually describe how an action is done

[4. Comparison adjectives](#): six types (equality, inequality, comparative, superlative...)

[5. Possessives](#): 's / s' and possessive pronouns (mine, yours, theirs, his, hers)

[6. Linking words](#): to connect ideas clearly (see the Linking Words chapter)

[7. The gerund](#) “ing” form: as a noun and after prepositions

[8. Verbs \(V3\) that become adjectives](#), and nouns that act as adjectives

[9. Modal verbs](#): can, could, would, should, must, may, might...

10. **Professional** / workplace verbs and vocabulary — see [Appendix J — Extended Professional Words Table](#)

11. I have added an **example** on how to **practice** on your own!

However, at A2 level I recommend outside this **guide** to work on: **translations, error corrections** and to take **1h** per week of **private lessons**!

2. Grammar: Tenses

In a professional workplace, I only recommend the below grammar to be used:

	SIMPLE		SIMPLE PASSIVE		CONTINUOUS
	Action in the present taking place regularly, never or several times.		To be (am/are/is) verb describes a person/animal/object : adjectives, job, nationality, location, feelings, presence.		Focus is on the action , not on the person/door.
	Action taking place now that takes time .				
PRESENT	I You She/He/It We They V1 V1+s/es/ies V1 V1		I You She/He/It We They am are is are are		A: He is here/good/German. They are great. N: He isn't here/good/German. He is not here/good. 3. Prepositions

Prepositions link nouns, pronouns or gerunds to the rest of the sentence. The three most common are at, in and on, used for time and place. A verb placed immediately after a preposition must take the -ing form.

We arrived at the station at 6 p.m. (precise time / point)

She was born in 1990 and lives in London. (year / city — larger area)

The meeting is on Monday, on the 5th floor. (day / surface)
